Home Life:

Giacomo lives with his mother, father, and older sister

Interests:

Track & Field, Traveling, Hiking, Fencing, Cards, Listening to Music

All about Giacomo:

Giacomo decided himself to become an exchange student and get to know himself better. He is a good student, especially in the subjects of physics and math. He is an excellent cook and enjoys cooking for the family. His favorite recipes include carbonara, amatriciana, focaccia, meatballs, etc. He enjoys the sports of fencing, running and hiking. He hiked last summer in the Dolomites and had a great time. He loves to solve the Rubik's Cube and play magic games with cards. He has attended many concerts with his family and his musical tastes range from Bruce Springsteen, U2, to rap music. He hopes to integrate himself completely into a foreign experience. Share your everyday "American Life" with Giacomo and apply to host today!
