All about Helena:

Helena is a very social and communicative person. She enjoys spending time with her family, friends, and pet rabbit. She attends a private girl's school and loves to participate in sports, such as field hockey and golf. She also golfs with her father from time to time. In school her favorite subjects are art, sports, and politics. She does not prefer the courses in technology or science. When spending time with her friends they go to the city, to the cinema, or just talk together. She spends time cooking or baking with friends or her younger sister. One of her hobbies is reading, especially romance novels. With one parent from Spain and another from Germany, she is excited to share both her cultures, while learning about the American culture on program.
