Home Life:

Adriana lives with her mother and father

Interests:

Tennis, Meeting w/Friends, Baking, Watching TV Series

All about Chloe:

Chloe is shy upon meeting her, but when she warms up she gains confidence and becomes very sociable and talkative. In school, her favorite subject is biology. She hopes to pursue a career in medicine, though not sure in which capacity. She practices the sport of tennis two times a week. In her free time she loves curling up on the sofa and watching Netflix. Right now she is watching the Gossip Girl series. She also enjoys baking. She often makes biscuits or cupcakes for her family. Friends are also important to her. She enjoys going to the cinema, beach, or spend time hanging at her house in the pool. It is her dream to go on exchange and live a different experience. Is your family willing to open your heart and home to Chloe and help her explore our American customs and traditions?
